

solutions provider for the...

## FOOD & BEVERAGE INDUSTRY

Cost-effective control systems for food & beverage manufacturing facilities

ECS Solutions specializes in the specification, design, configuration and installation of control systems in the food & beverage industry. Our experienced process engineers and technicians understand your problems and know how to help you solve them.

We have helped other manufacturing plants solve control problems in these and other areas—

### Processes

- Dry Ingredients
- Milk Receiving / HTST Controls
- Storage · Mixing · Batch Processing
- CIP
- Tablet Coating
- Packaging · Palletizing
- Inspection
- Waste Water Treatment

### Batch and Recipe Control

- Quick Change of Products / Recipes Without program Modifications
- SA88 Batch Standard

### Reporting

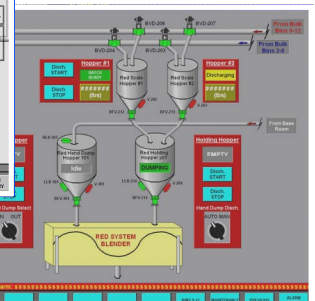

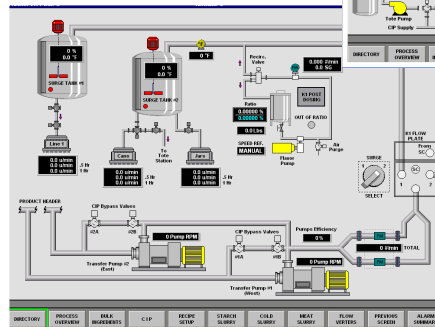

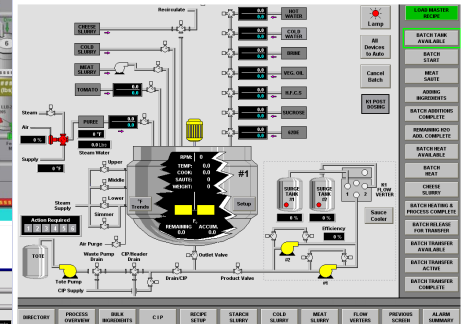

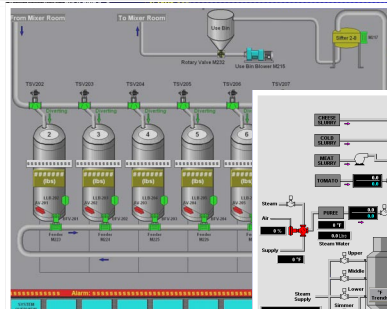

- Data acquisition · Historian · Performance
- Historical Trending · Log Generation · Alarms
- Real-Time Graphic Displays · Detailed Information Screens

### Hardware

- Mixers · Weigh Scales · Pumps
- Flow, Level, Temperature Transducers & Instrumentation
- Bar Coding · RFID · Vision Inspection
- Product Labeling

### Variable Speed Drives

- Engineering · Specification · Startup
- Material Handling

## Additional Services

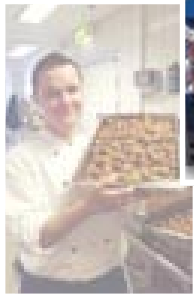

- Energy Management Surveys
- Information Systems and Networks
- Control System Functional Descriptions
- Complete Panel Fabrication Shop
- Startup and Commissioning Services
- Installation Services
- Graphics Development
- Training
- Outsourcing & Placement
- Emergency Field Service

ECS Solutions has the capabilities and resources to manage and install any controls application you may have. We develop and commission many projects in the food & beverage industry.

We have the resources to provide electrical installations involving panels, conduits, and power distribution.

Our panel shop technicians build panels ranging from small distribution panels to mid-range controls and drives panels to large e-houses.

Our knowledge of processes and technologies allows us to provide solid and viable systems solutions.

# EXCELLENCE

in every solution...

# COMMITMENT

to customers needs....

# SERVICE

you can depend on.
